

Peek a boo dog card!

You will need:

- A3 coloured card
- PVA glue or a glue stick
- Scissors
- Ruler
- Pencil
- Scalpel or blade (may require parental supervision)

Step 1:

Firstly, select a piece of A3 white card and fold it in half. This will be the base of your card where you write your message.

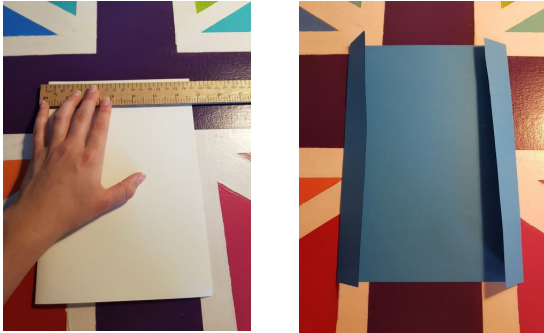

Step 2:

Next choose a piece of coloured card which will be the background behind your dog, I have chosen blue.

To create the background first measure the width of the piece of white folded card then cut out your background card so it fits the front of the white card, but be sure to leave a 2cm edge on either side so you can fold the edges over.

Step 3:

After this you need to cut out the shapes for the ear and the tongue.

Try and make your tongue roughly 23cm long and your ears need to be as wide as the width of your white card.

Step 4:

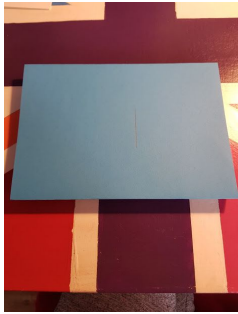

Once you have done this, then cut out the shape for the face. Make sure to leave a little flap at the top of the shape that will fit in the gap between 17x19.5 cm

Step 5:

Next, retrieve your background card and make a slit wide enough for the tongue to fit through half way down and in the middle of the paper.

You will need something sharp like a scalpel to do this so mind your fingers! Maybe ask a responsible adult to help you and make sure you use a ruler to make sure your cut is straight (a metal ruler is best, but if you don't have one of those a normal ruler is okay).

Step 6:

For the next step it's time to start sticking!

Stick the straight end of the tongue to the middle of the bottom of the ears and poke the tongue through the slit you have made so that the ears are behind the background card.

Now place glue in the folded edges of the background card and stick and card to the front of the white folded card.

Next, place glue on the two sides and top of the face shape, but NOT the middle or bottom.

Then, glue the little flap at the top of the face and fold it over so that it is on the inside of the white card.

Step 7:

Nearly there now! Just add the final touches. Cut out a semi circle for the muzzle, a nose and eyes and stick them onto the face of the dog. Make sure the eyes are under the ears when they are down.

Step 8:

Write your message inside your card and pull your dog's tongue to watch it's eats flop up and down!
